

vuitlive™ VIRTUAL Pak

vuitlive PRODUCT SPECIFICATIONS

 **Player Screen:** The screen size automatically resizes proportionally in accordance with the viewers screen size. This feature always allows the VUIT to be viewed 100% without the need for annoying scrollbars. The viewer can maximize the viewing screen of the VUIT to the full size of their screen at any time.

✦ 2Pak Player: 817 x 564 pixels

✦ 6Pak Player: 1032 x 564 pixels

 **Player Screen Library:** The VALUE Pak comes with an option to choose from over 1,000 Screen Player Frames (otherwise known as SKINS) from our library, providing a greater tailored end VUIT.

 **Feature Presentation Screen Size 581 x 400 pixels:** This is the actual size of the presentation that will be playing the VUIT creators loaded content.

 **VUITLIVE™ VALUE PAK Advertising Banners:** These banners are owned and utilised by the VUIT Creator and are referred to as a "2Pak✦✦" and "6Pak✦" which includes the following:

✦✦ Vertical banner: 200 x 400 pixels

✦✦ Horizontal banner: 497 x 67 pixels

✦ Right hand side banner 1: 200 x 110 pixels

✦ Right hand side banner 2: 200 x 110 pixels

✦ Right hand side banner 3: 200 x 110 pixels

✦ Right hand side banner 4: 200 x 110 pixels

The 2Pak✦✦ and 6Pak✦ Advertising Banners are provided as one unit to the Creator of the VUIT. It is the Creator's choice as to what they desire the banners to represent. With each banner they have the provision to assign an active hyperlink. These hyperlinks could be anything that resides on the World Wide Web, where the hyperlinks activate an online action when they are activated by the online viewer. These hyperlink actions could be active links to;

✦ Documents

✦ Websites

✦ Vouchers

✦ Books

✦ Software

✦ Video

✦ Conferencing

✦ Downloads

✦ Presentations

✦ Brochures

✦ Music

✦ Games

✦ Tutorials

✦ Social Networking Sites

- Catalogues
- Services
- Surveys
- Products
- Entertainment
- and so on.....

The list is only limited by the advertiser's imagination and creativity.

The 2Pak➤➤ and 6Pak➤ represents an interactive relationship between the advertiser and the viewer, creating an online communications marketing relationship for both parties.

The banners are static and are exclusive to the designated **VUIT**. This is an immense benefit to the **VUIT** Creator, as it creates **STAYING POWER**, where **STAYING POWER** equals greater branding and a greater chance that the viewer will interact with the **VUIT** Creator's hyperlinks.

The biggest issue that has confronted commercial advertising on the internet is the unspoken thus unanswered question of **STAYING POWER**. Statistics on Visits and Hits have to date been the driving force in getting advertisers to advertise on the internet. This is the equivalent of opening up a shop and people passing by your shop front window, having a glance and moving on. Did you not open up a shop for people to walk into, view your products/services thus increasing the sale potential? The answer is simple, Yes! When a person walks into your shop or business for that matter, you automatically establish **INTERACTIVE STAYING POWER**. In simple terms;

➤ Visits/Hits = Window Shoppers = LIMITED SALES POTENTIAL

➤ 2/6Pak Banners = Interactive Staying Power = GREATER SALES POTENTIAL

VUITLIVE™ now delivers what advertisers are looking for on the web, the online equivalent of Television Advertising, and then some.

An online communications and marketing portal with a matrix of quantum possibilities, only limited by your imagination and creative mind.

VALUE PAK ORDERING FEATURES

 **11 IMAGES EXACTLY:** Each **VUIT** requires exactly 11 images to be uploaded by the **VUIT** Creator. The 11 images are then intergrated into the Creators chosen 3D Tour.

 **ONLINE SCRIPT EDITOR:** The online script editor allows the user to type in a script for their **VUIT**. The maximum script size is 150 words for the entire **VUIT**.

 **PRESENTATION TIMEFRAME:** The 3D VIRTUAL TOUR runs for approximately 1 minute and 40 seconds.

 **PROFESSIONAL VOICEOVER:** **VUIT** Creators have a selection of professional voiceovers to choose from. They are able to choose male/female, accent/language and a 3 option preferential order. They will be able to listen to samples of the voiceovers and pick their top 3. Three options are offered to cater the fact that each professional voiceover can only perform a certain number of

voiceovers per day. Therefore if the 1st voiceovers daily quota is filled, then the second choice will perform the task. The same applies if number 2's quota is filled. If all three choices are overbooked, then **VUITLIVE™** will use the Creators criteria of "male/female, accent/language" and forward the voiceover script to a matching professional voiceover artist based on this criteria.

3D VIRTUAL TOUR LIBRARY SELECTION: An investment of over one million dollars was made to develop the world's first online 3D VIRTUAL TOUR library. Stage1 presents the Creator with the facility to choose from over 1,000 virtual tours for their **VUIT**. Current categories include:

 **VUITLIVE™ BACKGROUND MUSIC UPLOAD:** The **VUIT** Creator has the option of uploading their background music instead of choosing from the online library. It is the users' responsibility in making sure that they have the full rights to the music file they are uploading. The user will have to click onto a checkbox confirming that they have the right to upload and broadcast the music file of their choosing.

 **VUITLIVE™ ACTIVATION:** Once the **VUIT** created has been completed and confirmed by the Creator, it will be activated within 1-5 working days, allowing for the professional voiceover to be executed. In most cases the **VUIT** activation occurs within 1-3 working days.

 **VUIT HTML LINK & EMBEDMENT CODE:** An automated email will be sent to the **VUIT** Creator confirming that their **VUIT** has been activated. Within the same email they will receive the **VUIT** html link and link embedment code which they can thereafter place on their website or any other website around the world of their choice. This code can also be placed on Social Networking websites, for example eBay and any site permitting the user to enter a live link.

 **ONLINE IMAGE EDITING FACILITY:** **VUIT** Creators will be able to edit their images before uploading them via our own online image editing facility.

 **ONLINE BANNER LIBRARY:** Creators will be able to choose an Advertising Banner Template from our online library, and customize it to suit their needs via our online image editing facility. The categories include:

6 MONTH ROLLOVER NOTIFICATION: 6 months from the day the **VUIT** was activated live online, the creator of the **VUIT** will be sent an email asking them if they wish to rollover their **VUIT** for another 6 months. If they fail to respond within a period of 5 days from sending of email, their **VUIT** will be deactivated. Rollover of **VUIT** for another 6 months will incur 6 month hosting charges (approximately \$59.00) per **VUIT**.

VUIT's IN ALL LANGUAGES WITH NO LIMITATIONS: **VUIT's** can be created in any language. This feature truly makes the product a global online communication marketing portal. By the 1st of April 2008, we will be offering professional voiceovers in the top 20 world languages. Each time a new language has been added, it will be promoted via our Monthly Newsletter and other direct vehicles at our disposal. The default languages and accents are as follows; Australian Male/Female, American Male/Female, British Male/Female.

ADDITIONAL MULTICASTING SERVICE TO VIDEO HOSTING SITES

MULTICASTING SERVICE: The **VUIT** Creator can choose to have their **VUIT** multicast on the world's leading Video Hosting Sites including:

- AtomFilms
- Blip.TV
- BoFunk
- Bolt
- ClipShack
- JumpCut
- LiveVideo
- MySpace Video
- PutFile
- Sharkle

- EvideoShare
- Flurl
- Google Video
- Guba
- Veoh
- Vimeo
- Yahoo Video
- YouTube

Why use **Multicasting** to drive traffic to your website? According to the LightReading's report of Top 10 Video Sharing Sites, the number of Unique Audiences for YouTube, Google Video and Veoh are about 30,541,000, 9,348,000 and 1,011,000, respectively as at July 2006. There are a bunch of other video sharing sites which have hundreds of thousands of Unique Audience. And, these numbers keep rising. All these audiences are eager to watch videos that are of interest to them. This means you can use **VUITLIVE™ MULTICASTING SERVICE** to drive more traffic to your websites and sell more of your products or services. Just like what TV commercials do!

YOU CAN DO IT YOURSELF, BUT THERE'S A BIG PROBLEM! In order to really benefit from video sharing sites, you have to upload your video to multiple sites. And, you should not only upload just one video. The more videos you upload, the more visitors you will have. Unfortunately, uploading videos to multiple video sites manually **IS VERY TIME CONSUMING AND BANDWIDTH CONSUMING!**

Each video sharing site has its own form that needs to be filled out. Usually, it takes at least about 5 minutes to manually fill in the form, and then depending on the size of the video file, you may have to wait 10 minutes, or even more than 1 hour, for the upload to be finished. During the time you are waiting, you will have to frequently check whether the uploading process is finished, so that you can start the upload for the next video sharing site. If you don't check, then the uploading process will take even longer.

To be fair, let's assume that for each upload, it will take about **8 minutes** for you to login the account, fill in the form and make sure the video is uploaded successfully including the time of waiting for the upload, about **12 minutes**. If you uploaded the video to **18 video sharing sites**, then it will take **(8 + 12) x 18 = 360 minutes (6 hours)**. Some may think of hiring others to do this work. Yes, you can do that, but it means on top of having to pay the person at least \$60 per upload you would also have to pay at least \$150 to have your webmercial produced and prepared as a video file format to upload and lets not forget your bandwidth costs. **That is in excess of \$210.00**

With our **Multicasting Service** all you pay is **\$59.00**

PROFESSIONAL SCRIPTING SERVICE: If you haven't got time to create your script, simply insert a description next to each image and we will produce a professional script for you, all you pay is **\$59.00**

ONLINE IMAGE LIBRARY: If you ever fall short on the number of images you would like to have in your **VUIT**, you can choose one from our online library for a minimal charge of **\$2.50** per image.
